

-RAYMOND WEST- DOCK AND DOOR MAINTENANCE BENEFITS

To keep Dock and Door Equipment in your facility productive, efficient and safe, it's important to take the time to properly service it. Don't put yourself in a reactive and stressful situation due to lack of maintenance and avoid:

- **Costly downtime**
- **Security concerns that require after hour support**
- **Inflated service costs for repairs needed outside normal hours**
- **Rodent issues**

Our Schedule Maintenance programs offer convenience, as well as a cost effective approach to maintaining all your dock equipment.

Raymond West is a full service company. When you choose to work with us for your service and parts needs, you get a strategic partner dedicated to the safety, service and productivity of your business. To learn more about our scheduled maintenance programs contact us today.
